Consultation Questions

Q1 Do you believe that social workers provide services which are connected to health care, as defined in paragraph 2.7?	<ul style="list-style-type: none">▪ Yes <input checked="" type="checkbox"/>▪ No <input type="checkbox"/>▪ Unsure <input type="checkbox"/>
If Yes, what are those services?	<input type="text"/>

Q2 Do you agree that there is no need to designate the police in these regulations? See paragraph 2.16	<ul style="list-style-type: none">▪ Yes <input type="checkbox"/>▪ No <input type="checkbox"/>▪ Unsure <input checked="" type="checkbox"/>
Comments	<input type="text"/>

Q3 Do you have a view on whether we should designate HEIs so that they are subject to the duties of cooperation in respect of health care workers? See paragraph 2.19	<ul style="list-style-type: none">▪ Yes <input type="checkbox"/>▪ No <input type="checkbox"/>▪ Unsure <input checked="" type="checkbox"/>
Comments	<input type="text"/>

Q4 Do you agree that Regulation 3 designates all those organisations that are connected to all health care workers involved in providing health care (which are not already designated by the Responsible Officers Regulations)?

- Yes
- No
- Unsure

Comments

Q5 If you answered No to Q4, which other organisations should be designated?

Comments

Q6 Do you have suggestions on what might usefully be included in the protocols or MoU to facilitate sharing of information about health care workers, between sectors? See paragraph 2.20

Comments

Q7 What are the existing mechanisms in your organisation which the “relevant officer” could use for identifying and managing concerns about the conduct or performance of health care workers? See paragraph 2.26

Comments

Q8 Do you agree that one individual in an organisation should be given responsibility for complying with the organisation's obligations under these proposed regulations?

- Yes
- No
- Unsure

Comments

Whilst an individual officer should identified as having the lead responsibility for this, it must be a corporate responsibility of the organisation with board members / partners also being responsible for ensuring the role is carried out appropriately

Q9 Do you think we should specify in guidance the minimum level of seniority a relevant officer should have?

- Yes
- No
- Unsure

If Yes, what should that minimum level of seniority be?

Q10 How do you think the 'relevant officer' in your organisation might ensure that all the information in the organisation's possession is examined once the trigger (see flow chart at page 38) suggests a need for investigation or there is a request for information from another designated body?

Comments

Q11 Do you think guidance should set out any other responsibilities for the 'relevant officer' role? See paragraph 2.28

- Yes
- No
- Unsure

Comments

If our understanding is correct, the regulations in effect create a duty to refer health professionals about whom a threat to patient safety / serious fitness to practise concern has come to light. This duty should be made more explicit through guidance

Q12 Do you believe the safeguarding measures will ensure that information about health care workers will be dealt with in an open and fair way? See paragraph 2.33 – 2.34

- No
- Unsure

Comments

Q14 Do you agree that draft Regulation 6 provides a robust process for a designated body to substantiate an allegation against a health care worker before information based on

- Yes
- No
- Unsure

it is shared with another designated body?

Comments

We believe that care must be taken to stress that employers do not take on too much responsibility themselves to substantiate concerns about patient safety/fitness to practise before referring the health worker ('sharing information') with regulators

Q15 Do you agree that there is already robust guidance on how to handle confidential patient information?
See paragraph 2.36 – 2.38

- Yes
- No
- Unsure

If No, please specify what additional clarification you need.

- Yes
- No
- Unsure

Comments

Q17 Do you think regulation 7 as it stands strike the right balance between the aims set out in paragraphs 2.46? Do you think we should provide in regulation 7 that designated bodies should only provide to a recruiting designated body information about a health care worker's conduct or performance prior to the stage where references are sought, where there is an immediate threat to patient safety (with regulation 7 being compiled with in full when the provision of references stage is reached)?

- Yes
- No
- Unsure

Comments

Q18 If a request for information about a health care worker is made by a designated body during an appointment process, should all the relevant clinical governance information held on file by the designated body receiving the request be transferred to the requesting designated body once the appointment process has been completed?

- No
- Unsure

Comments

- Yes
- No
- Unsure

- No
- Unsure

If not, please indicate and provide evidence, where possible, of any areas of disagreement.

- Yes
- No
- Unsure

If not, can you provide evidence to support your argument?
